UN Department of Economic and Social Affairs (UN DESA)

**Subject: Request for clarification and permission to cite UN report content
(coursework)**

Dear Publications Team,

My name is Redouan Assakali and I am a student in Amsterdam working on a coursework tutorial about building clean text corpora from public UN documents for small-scale LLM fine-tuning.

I plan to use short excerpts from a recent UN DESA report as part of a reproducible demonstration dataset (only a small number of paragraphs, with attribution). Could you please confirm whether this use is acceptable for a non-commercial academic assignment, and whether there is any preferred citation format?

If it helps, I can share the exact excerpts I plan to include.

Kind regards,

Redouan Assakali
